

---

“Having an NCARB Certificate shows that I didn’t just stop at licensure and made the extra effort to gain reciprocity in other states. The Certificate allows me to continue serving in that capacity regardless of project location.”

—**Alex Rios** AIA, NCARB, CDT, LEED AP<sup>BD+C</sup>

---

“Maintaining an NCARB Certificate provides flexibility—I’m able to take my career wherever it may lead. Plus, I have a credential recognized and respected throughout the country.”

—**Mary Melissa Yohn** AIA, NCARB

## Certification Makes Applying for Reciprocity Easy

- 1 Log on to your “My NCARB” account
- 2 Select “Transmit Record” on the right

# THE NCARB Certificate

Giving You the Mobility to Grow

Becoming NCARB certified enables you to seek licensure in any U.S. jurisdiction through reciprocity—providing a competitive edge across the nation and beyond.

# The Benefits of Certification

“All I had to do to gain reciprocity was have NCARB transmit my record. I was registered that same afternoon!”

—Tina Stanislaski AIA, LEED AP, NCARB

Along with the flexibility to work in any jurisdiction, being certified also opens doors to exclusive benefits that will advance your professional growth.

## FREE Continuing Education

You can earn free continuing education hours through NCARB’s Monograph Series! Simply log into your “My NCARB” account at [my.ncarb.org](http://my.ncarb.org) and click on “Monographs” to see the variety of education materials available.

## Mobility

Being certified gives you the flexibility to go wherever work takes you, in a neighboring state or across the country.

## NCARB Credential

After certification you can add the prestigious “NCARB” credential to your title.

## Volunteer Opportunities

As a Certificate holder you’ll be the first to hear about volunteer opportunities to help shape the future of the profession with your state board and NCARB committees.

## Help Aspiring Architects Achieve Their Career Goals

The NCARB Certificate helps the next generation of architects succeed by offsetting the cost of facilitating the ARE and AXP. Renewing your Certificate each year helps NCARB continue this valuable service to the profession. You may also consider becoming an Architect Licensing Advisor to help aspiring architects on their path to licensure.

## Subscription to *National Architect*

A bimonthly e-newsletter with the latest news and updates for practicing architects.

## Recognition as a Leader

Being certified shows employers you’re committed to the profession and have the ability to pursue projects across the country.
