

CONTINUUM EDUCATION

Convenient Continuing Education Courses in Health, Safety, and Welfare

With most of the 55 jurisdictions requiring continuing education (CE) to maintain your architectural license, we've made it as easy as possible to meet these requirements with NCARB's Continuum Education Program.

ncarb.org/CEcourses

CONTINUUM EDUCATION

NCARB'S Continuum Education Program allows you to:

Earn CE Credit for Multiple Jurisdictions

Simply read the course and take the online open-book quiz. You'll earn 1 to 2.25 HSW Learning Units (LUs) for each CE course, which can be reported for credit in multiple jurisdictions.

Learn From Experts

All CE courses are written by experts in the field, so you know you're learning information you can trust on current topics such as: fire safety in buildings, architectural acoustics, and professional conduct.

Learn Anytime, Anywhere

The convenient online quizzes can be taken wherever you are—on a train, in an airport, or from the comfort of your own home on any device.

Learn at Your Own Pace

You have two years from the date you download a course to complete the quiz, making our CE courses convenient to your busy schedule.

CE courses are always FREE for Certificate Holders!
