

PSI Test Centers

For Architect Registration Examination®

Last updated on 05/10/2022.

The following list is provided as an early resource to help candidates begin to understand the location of test centers that will be available when delivery of the ARE migrates to PSI. This list includes both PSI test centers and third-party test centers that participate in PSI's network and meet PSI and NCARB's standards. Specific locations are subject to change as additional locations become available or specific locations within cities relocate.

Once you migrate to PSI, you should refer to the location information that will be provided at the time of scheduling to ensure you have the correct address for any onsite scheduled appointment.

To ensure that you always have the most up-to-date information, this list will not be available after the migration, and the information on any downloaded versions of the PDF list will be considered out-of-date.
